Hydrobiologia

The International Journal of Aquatic Sciences

Volume 533, 15 January 2005

Opinion

A conceptual model of climate-related effects on lake ecosystems
T. Blenckner 1–14

Primary Research Papers

The 'shock period': dynamics of phytoplankton during the spring–summer transition of a stratifying English lake
J.F. Talling, H.J. Spencer, H.R. Morison 15–28

Seasonal patterns of reproductive activities among deep-sea benthic copepod species in the bathyal Sagami Bay, central Japan
M. Shimanaga, Y. Shirayama, H. Kitazato 29–39

***Eodiaptomus indawgyi* n. sp., a pelagic calanoid copepod presumed endemic to ancient Lake Indawgyi, Myanmar**
H.J. Dumont, J. Green 41–44

Benthic invertebrate community structure is influenced by forest succession after clearcut logging in southeastern Alaska
O. Hernandez, R.W. Merritt, M.S. Wipfli 45–59

Microdistribution of chironomids (Diptera: Chironomidae) in Alpine streams: an autoecological perspective
V. Lencioni, B. Rossaro 61–76

Evidence for salt diffusion from sediments contributing to increasing salinity in the Salton Sea, California
G.D. Wardlaw, D.L. Valentine 77–85

Exploring the relationship between land cover and the distribution of water beetle species (Coleoptera) at the regional scale
M.D. Eyre, G.N. Foster, M.L. Luff 87–98

Benthic macrocrustacean and insect assemblages in relation to spring habitat characteristics: patterns in abundance and diversity
J. Ilmonen, L. Paasivirta 99–113

The relationship between sediment mobilisation and the entry of *Baetis* mayflies into the water column in a laboratory flume
C.N. Gibbins, E. Scott, C. Soulsby, I. McEwan 115–122

Phytoplankton uptake of ammonium, nitrate and urea in the Neuse River Estuary, NC, USA
L.J. Twomey, M.F. Piehler, H.W. Paerl 123–134

Extraction and detection methods for polyphosphate storage in autotrophic planktonic organisms
S. Eixler, U. Selig, U. Karsten 135–143

Diatom–environmental relationships and nutrient transfer functions from contrasting shallow and deep limestone lakes in Ontario, Canada
P. Werner, J.P. Smol 145–173

A preliminary examination of the diet and feeding of sea sweep *Scorpis aequipinnis* (Pisces: Scorpididae) from coastal waters of south-western Victoria, Australia
D.M. Newman, P.L. Jones, L.J. Laurenson 175–186

A new giant cypridid ostracod (Crustacea) from southern Buenos Aires Province, Argentina
S.L. Fontana, S. Ballent 187–197

Atelomixis as a possible driving force in the phytoplankton composition of Zirahuén, a warm-monomictic tropical lake
R. Tavera, V. Martínez-Almeida 199–208

Rotifer communities of floodplain lakes of the Brahmaputra basin of lower Assam (N.E. India): biodiversity, distribution and ecology
B.K. Sharma 209–221

Preliminary studies on the genetic variability of six Hungarian common carp strains using microsatellite DNA markers
I. Lehoczky, I. Magyary, C. Hancz, S. Weiss 223–228

The effects of spatial habitat structure on the evolution of density-dependent growth and reproduction in freshwater snails
M. Kawata, H. Sawada, J. Yokoyama, L.M. Echenique-Díaz, Y. Ishibashi 229–241

Factors influencing *Gonyostomum semen* blooms in a small boreal reservoir lake
D.L. Findlay, M.J. Paterson, L.L. Hendzel, H.J. Kling 243–252

Short Research Note

C, N, P concentrations and requirements of flowering *Posidonia oceanica* shoots
S. Gobert, P. Lejeune, G. Lepoint, J.-M. Bouquegneau 253–259
